

GO GREEN !

mercredi 24 mars 2021, par [Julia Fady](#)

The 6^e OIB class is going green !

The students of the 6eOIB class have decided to help make Mignet green again, one plant at a time. Last Tuesday they replanted and decorated the vegetable containers in the yard, with lettuce, carrot seeds, beet seeds, strawberry plants, potatoes, radishes, peas and beans, and refurbished the insect hotel.

They planted flower bulbs all around the school and cleaned up some of the planter boxes. They worked hard to make a nice environment to help welcome Spring !

Go green !
